

COUNCIL PROGRAMS, SERVICES AND FACILITIES

Greater Shepparton City Council provides a wide variety of services and facilities and enforces various federal, state and local laws for the community. These services include planning, building, roads and parking, health services, public health initiatives, community services, maternal and child health, kindergartens and childcare, waste management, animal management, sport and recreation, arts and culture and emergency management.

To explore in further detail the services Council provides, visit Council's website www.greatershepparton.com.au

Council's Active Living Department is responsible for managing leisure facilities including Aquamoves Lakeside Shepparton, Sports Stadiums, KidsTown, Rural Outdoor Pools in Tatura, Mooroopna and Merrigum, and delivering health promotion programs such as Activities in the Park.

The vision statement of Council's Active Living Department is:

"we believe everybody should have access to and be encouraged to participate in programs that allow them to be healthy, active, happy and connected."

How to submit your completed activity sheet

Please save your completed activity sheet and then submit via email to healthplan@shepparton.vic.gov.au to have your ideas included in Council's Public Health and Wellbeing Action Plan.

To discover how Council is working towards creating a healthy, liveable regional city download a copy of Council's Public Health and Wellbeing Plan <https://greatershepparton.com.au/community/safety-and-wellbeing/municipal-health-plan>

Activity

1. What does the vision statement of Council's Active Living Department mean to you?

2. What barriers do young people face towards accessing Council's services and facilities?

3. What barriers do young people face towards participating in community programs?

4. If you could implement any program, service or facility for young people what would that be? Name your idea and provide a brief description in the space below. The more ideas the better!
